

HTTP Critical Path

HTTP 5126 - Database Design & Development Fall 2024

Instructor: Matthew Bebis

matthew.bebis@humber.ca

The Critical Path is the course schedule. It is an important document that lays out weekly **and/or** module objectives that you are responsible for to ensure academic success. Download and/or print out a copy of the Critical Path and refer to it regularly.

Unless discussed and specifically approved in advance by your instructor, the use of generative artificial intelligence (also known as “GAI” or “AI”, for example, ChatGPT) **is not permitted** for this course and its use will be considered academic misconduct.
